Brand X?

Solid Hardwood Slide-Out Fascia: Montana’s solid hardwood slide-out fascia is more attractive, elegant and durable than MDF or foam injected molds used by other FW brands.

30” Over-The-Range Microwave: Montana’s Residential 30” OTR Microwave (or Optional 30” OTR Convection/Microwave Oven) features an integrated range hood with an exterior exhaust fan. The integrated range hood allows the microwave to be mounted at a lower, more convenient height.

Cedar Lined Front Closet: Montana’s cedar lined front closet absorbs moisture and repels pests.

Samsung LCD TV and Home Theater System: Montana’s Samsung Home Theater system features 5.1 surround sound (5 speakers + sub woofer), iPod dock w/video, HDMI output w/ 1080p upscaling, and auto sound calibration.

12 Volt 19” High Definition Bedroom LCD TV: Montana’s 12 volt 19” HD bedroom LCD TV is mounted with an adjustable swing-out arm for optimal viewing. The lightweight bedroom TV can be easily moved and mounted in the exterior pass through storage compartment.

Flair™ Air Mattress Hide-A-Bed Sofa: The Flair™ air mattress hide-a-bed sofa has an electric motor to inflate and deflate residential 60” x 80” queen sized air mattress quickly.

Swiveling Table Top: Montana’s swiveling table top provides added versatility, comfort and space. The refrigerator is accessible on every floor plan... even rear kitchen models!!! The table top also slides side-to-side, has a pull-out extension and drawer!

Giant Pass Through Storage Compartment: The Montana drop frame pass through storage compartment provides over 140 cubic feet of storage! The flush floor is lined with durable Congoleum™.

Max-Turn Technology™: Montana’s integrated frame and front cap design allows for an industry best short bed truck to fifth wheel angle. The front rail of the Montana frame is curved to provide more turning radius, unsurpassed aerodynamics and structural integrity.

MOR/Ryde™ Rubber Suspension: Montana’s MOR/Ryde™ suspension provides 4” of axle travel and superior equalization for a smoother ride and better protection of the 5th wheel and cargo.

Goodyear™ Tires: Every Montana fifth wheel runs on 8-lug wheels and 16” E-range Goodyear™ tires

Dexter Nev-R Adjust™ Brakes: Nev-R-Adjust™ brakes adjust automatically in the forward moving direction eliminating the need for manual adjustments while maintaining optimum performance and braking power.

Dexter E-Z™ Lube Axles: Every Montana fifth wheel runs on 6000 or 7000 lbs. Dexter E-Z Lube™ axles.

Wet Bolts and ½” Shackle Links and Bronze Bushings: Montana uses Wet bolts and ½” shackle links for axle attaching parts. Also, axle leaf spring-eyes have bronze bushings. The wet bolts and bronze-bushing combination allows the RV owner to lubricate all axle pivot points for greater durability.

Rear Back-up Lights: Montana’s rear cap has molded back-up lights to illuminate the area behind the 5th wheel when backing into a parking spot or campsite. Back-up lights are an important safety feature because back-up lights notify other motorists when the 5th wheel is moving in reverse.

Easy Flow Graphics: Montana’s smooth flowing graphic design is applied with state-of-the art adhesives and includes an exclusive 3 year warranty (Parts + Labor).

High Pressure Exterior Shower: Montana has a multi-purpose high pressure exterior shower with 16’ quick connect hose that will accommodate a wide variety of nozzles.

Power Tank Fill: Montana’s power tank fill quickly fill the fresh water tank without disconnecting from the city water hook-up.

Easy Set Remote Control System: Montana's remote control system provides convenient remote control of hydraulic slide-outs, electric front landing gear, electric rear stabilizer jacks, electric awning, patio light, entry step light and LED hitch light.

Easy Store Sewer Boom: Montana's innovative sewer boom protects the sewer hose while eliminating the need for hooking, unhooking and storing the hose and couplers.

90amp/12v DC Power Converter/Charger: Montana's 90amp converter features a microprocessor controlled, multi-stage battery charger for fast recharge times and longer batter life... will recharge "dead" batteries (0 volts). Power factor corrected charging significantly reduces the AC draw needed for charging, while making more power available to receptacle loads and air conditioning.

Residential Electrical Outlets: Montana's electrical outlets are mounted on the walls and base cabinets.

R-9 Laminated Sidewalls: The Montana sidewalls are laminated with R-9 solid block foam insulation.

R-21 Floors Tested and Approved for 0° Usage: Montana is tested and approved for 0° usage! Flush floor slide rooms insulated with R-14 astrofoil insulation (lift the carpet and see). Water lines are installed between the floor joists, near the heat duct and above all of the insulation and the heated underbelly. Low point drains are enclosed in exterior convenience center.

R-38 Roof Insulation: Montana uses radiant technology insulation to provide R-38 total roof insulation.

Ducted 2nd Air Conditioner: Montana's optional ducted 2nd air conditioner includes a remote sensor and dual zone, digital thermostat... set the thermostat to monitor the temperature in the bedroom OR living area!

Vented Attic: Montana's vented attic provides vital escape routes for unwanted interior moisture.

Galvanized Steel Roof Trusses: Machine fabricated galvanized, stamped steel roof trusses are lighter and stronger than aluminum or wood roof trusses. The unique c-channel steel roof trusses provide spacing for up to 30" of extra roof insulation.

Mechanically fastened slide-out bulb seals mounted in "T" track: Montana's mechanically fastened slide-out bulb seals are mounted in a "T" track.

Welded, Aluminum Wall and Floor Framing: The Montana walls and floor are completely framed with welded aluminum for maximum strength and weight savings.

Exterior convenience: center consolidates ext shower, battery disconnect, black water flush, easy winterization kit, enclosed low point drains, cable/satellite hook-ups in one compartment with 12v light!

Multiple Satellite Hook-ups: Montana offers two satellite hook-ups in the exterior convenience center: one hook-up for the main living area TV and a separate hook-up for the bedroom TV.

Lippert Hydragear Slide-Outs w/ 5 year Warranty: Montana's Lippert Hydragear slide-outs have a 5 year warranty. Hydraulic slide-outs provide 400 psi compression on the slide-out seals to keep the Montana sealed against water and climate.

Rear Accessory Hitch: Montana installs a useful rear accessory hitch for bike or cargo carriers.

Mechanically fastened slide-out bulb seals mounted in "T" track: Montana's mechanically fastened slide-out bulb seals are mounted in a "T" track.

36" Wide Garden Tub: Montana has a 36" wide garden tub shower or neo angle shower.
